

Test Readiness Review I (TRR I) Checklist
TRR I CHECKLIST

System:	Release:	TRR I Date:
Version:	Jira Number Included in This Release:	Projected Deployment Date:

TRR I - ENTRY CRITERIA	OPR	YES	NO	N/A	Comments / Remarks
1. Has a Release Request Letter been coordinated and has Release Number(s) created?	PMO				PM received release approval IAW local CCB Baseline approval procedures.
2. Has the Integrated Test Plan (ITP) been coordinated and approved?	PTO/TM				No changes required for this release
3. Has the required turn-in (product baseline release) package been prepared by the Program Management Office (PMO)?	PMO				CCB Sub Approval:
PRE-RELEASE CONTENTS:					
• Engineering: Go/No Go Recommendation	EN				
• Cyber Security (CE) Evaluation/Information Assurance (IA) Manager 'No Impact Security Memorandum' or 'Interim Authority to Test (IATT)'	CS				Cyber SIA: Validation complete.
• Software Version Description Document (SVD) • System Installation Instructions	DEV				Final due 7 days after deployment
• Component Validation and Integration (CV&I) Test Report (to include Deficiency Reporting disposition status)	DEV / PTO/TM				Refer to contractor CDRL A004 STR in Confluence; CV&I ITR not required.
• Qualification Test & Evaluation (QT&E) Test Scripts (i.e., System Integration (SIT), System Operability Evaluation (SOE), Regression, Test Scripts are in ALM)	PTO/TM				
• Have all interfaces been tested to ensure operability to include validation that all required connections (firewall/router Access Control List (ACL), etc) for designated test users/resources have been configured, assigned, and tested operational? Identify the method of interface testing (i.e., end-to-end or stub).	DEV/ PMO/ FMO				
• Are all 3400/3600 resources available for events (including PTO, PMO, Functional Management Office (FMO), and developer/system integration personnel)? (MilPDS)	ALL				
• Updated System Documentation (System Requirements Specification (SRS), Requirements Traceability Matrix (RTM), Software User's Manual (SUM), etc), i.e., requirement mapped to test scripts within ALM, test scripts validate requirements, etc	DEV/CM PTO/TM				SRS due 7 days after deployment RTM due 7 days after deployment SUM maintained by BPO
TRR I - MEETING TOPICS	OPR	YES	NO	N/A	Comments / Remarks
1. Have all CV&I Problem Report (PR) and Issues repairs been successfully tested prior to code migration to the government-managed test environment? • Have all CV&I Priority 1 and 2 Issues been resolved? See ALM & Jira for issues • Have appropriate workarounds been identified for all Priority 3 CV&I Issues? See ALM & Jira for issues	DEV/ PTO/TM/ FMO				

2. Have all database records been updated to the current date?	DEV CM				MilTEST refresh completed 17 Jan 25. If RI changes, a simulated refresh is needed.
3. Has a daily schedule for all X19s been established and running via concurrent manager? (MilPDS)	DEV				
4. Are there other Automated Information System (AIS) releases required or dependent on this release?	PMO				
5. Does this release contain code/environment changes or configurations modifications that could compromise existing security baseline? If so, has the appropriate action been taken to properly account for the changes (i.e., updated authorizations to test, connect, operate, etc.)?	DEV FSA CS				
6. Has debugging been turned off?	DEV				
7. Have all responsible parties reviewed and concur with the QT&E test events and schedule (to include UET)?	ITT				
8. Are there any current test coverage constraints or limitations? What mitigation strategies are implemented to address constraints?	PTO/TM ALL				
9. Has a QT&E Deficiency Review (DR) Board (Triage) been established? (MilPDS)	PTO/TM PMO FUNC				Per test process, DRB is always established if DRs are identified.
10. Are there any technical or programmatic risks associated with this release (i.e., changes to the shared services provided, infrastructure changes, or cost/schedule/performance risks, etc.)?	DEV PMO				
TRR I – EXIT CRITERIA	OPR	YES	NO	N/A	Comments / Remarks
1. Do all stakeholders agree that QT&E should proceed as planned?	PMO/ TM/ PTO				Contingent upon favorable Cyber review.
POST-TRR I MEETING ACTIVITIES	OPR	YES	NO	N/A	Comments / Remarks
1. Has the Product Baseline Release Package been placed under configuration control?	CM/ DEV				

DISTRIBUTION C. Distribution authorized to U.S. Government agencies and their contractors for administrative and operational use, (01 July 2025). Refer other requests for this document to AFLCMC/GBHT, Randolph AFB, TX 78150.

DESTRUCTION NOTICE—Destroy by any method that will prevent disclosure of contents or reconstruction of the document.

Scott Fontenarosa, Contractor, Torch Technologies,
Test Manager

Captain Matthew Moore, DAF
Program Manager AFPROMS

Melvin R. Ward, NH-03, DAF
Test Director, 45th Test
Squadron OL-A

Acronym/OPR Legend:

ACL – Access Control List
AIS – Automated Information System
ALM - ALM Octane
CM – Configuration Management
CS – Cybersecurity
CV&I - Component Validation & Integration
DEV – Developer/Vendor
DISA – Defense Information Services Agency
DR – Deficiency Review
EN - Engineering
FSA – Functional Systems Administrator
FSO – Field Security Operations
FMO – Functional Management Office
IA – Information Assurance
IATT – Interim Authority to Test
ITE – Integrated Test Environment
ITP – Integrated Test Plan
ISSO – Information Systems Security Office
ITT – Integrated Test Team
PMO – Program Management Office
PR – Problem Report
PTO – Participating Test Organization
QT&E – Qualification Test & Evaluation
RTM – Requirements Traceability Matrix
SVD – Software Version Description
SOE – System Operability Evaluation
SRS – System Requirements Specification
SUM – Software User’s Manual
TM – Test Manager
